## QUALITY CONTROL

## WE ALWAYS SEE THE BIG PICTURE. EVEN WITH THE SMALLEST COMPONENT

*Industrial-Exclusive Testing Lab with 15+ testing machines*

Whatever the venue, quality comes first. We focus on every detail of your project - studying every seat and table, nut, bolt and component. After all, superior quality can only be achieved when the smallest of details are perfected.

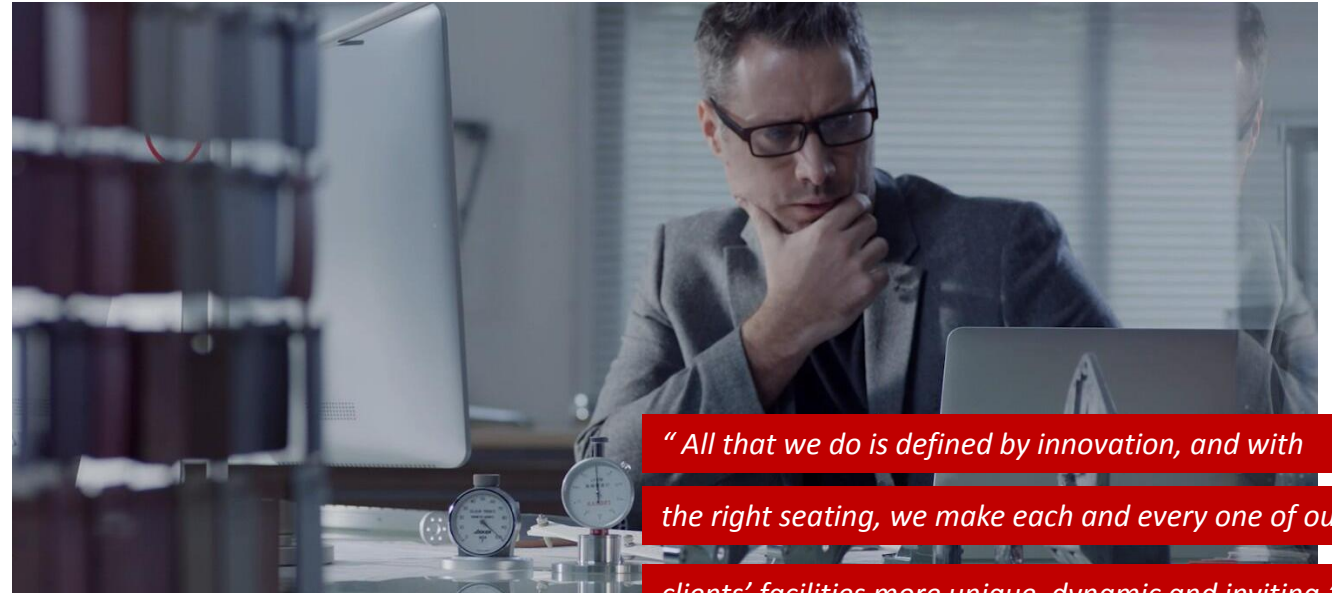

Our products are developed, produced and tested in a controlled environment using the most advanced equipment available. Seats and tables that don't meet our unrelenting standards for design and durability simply aren't approved.

## LIFAN ENGINEERING CAPABILITY

At Lifan Office Furniture, we are justifiably proud of our unparalleled custom-design capabilities. Creating workstations, office desks, training room desks and chairs, Lifan is stepping ahead of the change with furniture that redefines the way in which people work.

We always have an eye on innovation, and how leaps in manufacturing technology can make a very real difference to your workforce. From product design to project management and space planning, we deliver superior spaces on time, on budget and always beyond your expectations.

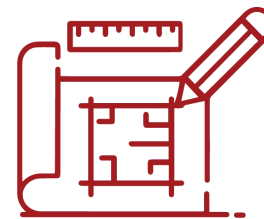

*"All that we do is defined by innovation, and with the right seating, we make each and every one of our clients' facilities more unique, dynamic and inviting."*

# PROJECT MANAGEMENT EXPERIENCE

Lifan Office Furniture leads the way with best-in-class furniture solutions. Yet our service around the clock to our worldwide customers goes far deeper and much further than simply being the best.

From your very first phone call or initial email enquiry, to the final touches on your installation, We stand alongside you – supporting you every step of the way. Our experienced sales team takes care of your order from the very beginning, while our installation team takes care of installation to the end.

Everything we offer helps to lower your cost, improve quality and guarantee a smooth project implementation - giving you complete peace of mind and assurance. And because we are an independent manufacturer, your orders are managed from top to bottom – with nothing in between and no middle men to hinder the progress of your project.

# CUSTOMER SERVICE EXPERIENCE

Pen Workers Seating Company (94 years in seat

## Congratulations to Leadcom Seating for its 20 year existence

Anmol Kashmiri  
MARKETING DIRECTOR

Congratulations to you for completing 20 years of success tremendous growth and have built eminent goodwill for you tried to provide good quality products and services to customer marvelous and appreciable.

When you began your business there was lot of competition with your diligence and good quality product faced it and have market and have risen above all. It's our pleasure that we are years and we have always found fruitful results in our work experience.

Companies like yours with a brilliant team of dedicated work environment can only aim for high results. Working with you value each and every transaction and deal.

Congratulations from all of us for your wonderful journey of 20 years of success and we hope the same for the future also. We hope your firm reaches to new heights in the coming days.

We wish you all the best for your future.

## Lifelong friends, lifelong business

Mr. Sam Sniell  
Owner  
Dolphin-Leadcom Inc.

WOW time does really fly by so fast. It's hard to believe that it's been 20 years since Julie and I first met Mr. Wu, Jason and Wang in Guangzhou. Mr. Wu personally toured us through the factory and we did not know these first meeting relationship and life long friendships. After several years we invited us to attend the company new year party for the first time.

Julie and I did not know what to expect. We were very nervous, the party was like a big happy family. The party was a lot of fun so many people for the first time that have also become our friends during the party he was surprised and very happy. We our relationship was more than business, we were truly friends. In our company new year party we have attended all the parties adventures, a lot of fun and good food with our Leadcom friends.

As the years passed Jason was right, our relationship customer to truly good friends and family and partners. It's a lot through these many years. In the early years the seats the US market were smaller cinema models. Now the sea work with Sophie daily to sell. The factory we first toured. The factory of today shows how Leadcom has truly grown. The seating factory in the world allowing us with the factory deadlines.

Our factory engineers have always amazed us with their innovations that has allowed us to always offer the latest and greatest seating products as the years passed. We believe their latest luxury seating models are their greatest work so far.

## ENTERPRISES, INC.

--- WORKING TOGETHER

Mr. Frank D. Garavelli  
CEO  
Garavelli Enterprises, Inc.

It is my immense pleasure to be invited to express my congratulations to all the employees and management of LEADCOM for reaching the 20th anniversary of designing, marketing and manufacturing top quality products that provide comfort around the world. This happened due to the management of Leadcom creating and having a long term growth plan in different seating market segments with a global perspective.

Having worked with Vivien on my first visit to Leadcom in 2004 and with Jason, the sales staff and attending factory meetings, conferences and world expo's I've been privileged to see Leadcom's incredible growth into a World Leader in all market segments.

Leadcom understands their markets and customer needs and provides the marketing to attract, new customers, architects, designers and end users.

### FACTORY

The remarkable factory investments by Leadcom made the growth possible along with the vertical integration adding new manufacturing equipment to the advantage of all marketing segments, in addition to automation and technology as well as testing equipment to meet global standards.

### PRODUCT ENGINEERING

Product design plays an important part in the success of new product introductions that competes with the competition. Leadcom is focusing on and adapting to the changing requirements by adding re-charging power to the seats and areas around the departure lounges in airport, railway stations, cruise ship terminals and small businesses.

### CUSTOMER SERVICE & SALES

Leadcom designed a great customer service department that makes it possible to meet every architect design specifications or end users configuration requirements. Today's markets are totally different than five years ago with new seating options and electronic features.

Mr. Mauricio Pacifico

S&M Comercio e Servicos LTDA

It has been an incredible experience working with Leadcom in the past 4 years. Leadcom counts on great professionals in both sales and production, which guarantee us a great service and certainty that we will receive a quality product. Especially the commercial team led by Mr. Jason and Mrs. Vivien, are very efficient, friendly and solicitous, always acting with agility and professionalism.

Congratulations to Leadcom for its 20 years of existence and for maintaining a very efficient team to meet us, achieving the state of the art in products and service. CONGRATULATIONS !

Mr. Esayas Woldemariam

Managing Director  
EY International FZC

Thank you for your confidence in us and good words. We also have the confidence in your product and we look forward for better opportunities to work together.

And I would like to also inform you that the client is very happy with the product and they are proud of it.

Mr. GREGG HAGEN

Managing Director

ALLOYFOLD. COMMERCIAL SEATING AND FURNITURE

It has been such an enjoyable experience working with Leadcom over the past eight years, thank you for being such a great partner and supplier. I wish Leadcom all the best for the future and look forward to many more years working together.

Mr. Lodewijk Conrads

Owner  
Bseated

Dear All,

My seating experience with Leadcom Seating. Time flies already ten years since I have been working with Leadcom, or is it even longer!

Our cooperation started after having a few visits of me to Leadcom China. The warm welcome of Jason and his team was the start of our first business with Leadcom. In the years to follow I had the experience to work with a professional sales team and always a swift response time for handling questions. I hope we will expand our business in the upcoming years. In the last years we had less time to meet up and have a drink together so I hope we can celebrate together to toast on the Leadcom anniversary and of course not to forget to toast on our health and happiness!
